1. BASIS OF PREPARATION

The condensed consolidated financial statements have been prepared in accordance with the applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited (the Listing Rules) and with Hong Kong Accounting Standard 34 (HKAS 34) “Interim Financial Reporting” issued by the Hong Kong Institute of Certified Public Accountants (the “HKICPA”).

2. PRINCIPAL ACCOUNTING POLICIES

The condensed consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments, which are measured at fair values.

The accounting policies used in the condensed financial statements are consistent with those followed in the preparation of the Group’s annual financial statements for the year ended 31st December, 2007.

In the current interim period, the Group has applied, for the first time, a number of new standards, amendments and interpretations (“new HKFRSs”) issued by the Hong Kong Institute of Certified Public Accountants, which are effective for the Group’s financial year beginning 1st August, 2007.

The adoption of the new HKFRSs had no material effect on the results or financial position of the Group for the current or prior accounting periods. Accordingly, no prior period adjustment has been recognised.

The Group has not early applied the following new and revised standards or interpretations that have been issued but are not yet effective.

HKAS 1 (Revised)	Presentation of Financial Statements ¹
HKAS 23 (Revised)	Borrowing Costs ¹
HKAS 27 (Revised)	Consolidated and Separate Financial Statements ²
HKFRS 2 (Amendment)	Vesting Conditions and Cancellations ¹
HKFRS 3 (Revised)	Business Combinations ²
HKFRS 8	Operating Segments ¹
HK(IFRIC)-Int 13	Customer Loyalty Programmes ³

2. PRINCIPAL ACCOUNTING POLICIES – (continued)

Note

¹ Effective for annual periods beginning on or after 1st January, 2009

² Effective for annual periods beginning on or after 1st July, 2009

³ Effective for annual periods beginning on or after 1st July, 2008

The adoption of HKFRS 3 (Revised) may affect the accounting for business combination for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after 1st July, 2009. HKAS 27 (Revised) will affect the accounting treatment for changes in a parent's ownership interest in a subsidiary that do not result in a loss of control, which will be accounted for as equity transactions.

The directors of the Company anticipate that the application of these HKFRSs will have no material impact on the results and financial position of the Group.

3. SEGMENT INFORMATION

4. INCOME STATEMENT CLASSIFICATION/OTHER COSTS

Allowance for irrecoverable trade receivables

Included in administrative expenses is an allowance of Rmb139,834,000 (2007: Rmb137,507,000) for estimated irrecoverable trade receivables, which is determined based on the difference between the carrying amount of those receivables and the present value of estimated future cash flows from those receivables, discounted at the original effective interest rate.

Write-down of inventories to net realisable value

Included in cost of goods sold is an amount of Rmb14,207,000 (2007: Rmb15,706,000) in respect of the write-down of

inventories to their estimated net realisable value.

5. INCOME TAX EXPENSE

(a) No provision has been made for Hong Kong Profits Tax as the Group did not earn any income subject to Hong Kong Profits Tax during the six months ended 30th June, 2008.

(b) Income tax in the consolidated income statement represents the provision of PRC income tax as follows:

The new Enterprise Income Tax Law of the People's Republic of China was effective on 1 January 2008. The Company and its subsidiaries, being registered as "High-New Technology Enterprise", were subjected to enterprise income tax rate of 15%. Pursuant to the relevant requirements of Rules for Implementation of Enterprise Income Tax Law of the PRC (), the Company and its subsidiaries are under reassessment of being High-New Technology Enterprises. If the reassessment is successful, the Company and its subsidiaries will continue to enjoy the income tax rate of 15%, otherwise the tax rate will be increased gradually to 25% over a transitional period of 5 years.

Deferred taxation is calculated in full on temporary differences under the liability method using a principal taxation rate of 15% (2007: 15%).

6. PROFIT FOR THE PERIOD

At the balance sheet date, the Group pledged property, plant and equipment and investment properties having a net book value of approximately Rmb226,829,000 (2007: Rmb267,394,000) to secure certain of Group's trading facilities. There is Rmb229,485,000 (2007: Rmb169,684,000) bank deposits to secure certain of Group's trading facilities during the year.

17. RELATED PARTY DISCLOSURES

(i) Transactions/balance with ultimate holding company and fellow subsidiaries

In the current period, the Group made purchases from subsidiaries of Harbin Power Plant Equipment Group Corporation ("HPEGC") amounting to approximately Rmb58,210,000 (2007: Rmb40,476,000). At the balance sheet date, credit facilities granted by certain banks to the Company were secured by corporate guarantee given by HPEGC.

(ii) Transactions/balance with other state-controlled entities in the PRC

The Group operates in an economic environment currently predominated by entities directly or indirectly owned or controlled by the PRC government ("state-controlled entities"). In addition, the Group itself is part of a larger group of companies under HPEGC, which is controlled by the PRC government. Apart from the transactions with HPEGC and fellow subsidiaries disclosed in section (i) above, the Group also conducts business with other state-controlled entities. The directors consider those state-controlled entities are independent third parties so far as the Group's business transactions with them are concerned.

In establishing its pricing strategies and approval process for transactions with other state-controlled entities, the Group does not differentiate whether the counter-party is a state-controlled entity or not. Material transactions/balances with other state-controlled entities are as follows:

BUSINESS REVIEW

For the first half of 2008, the global economy faces a significant downturn, despite China's GDP continues to maintain stable growth at a year-on-year rate of 10.4 per cent. During the first half of the year, as market demand for domestic and overseas power generation grows, development continues to target at high parameter, low pollution, high capacity and environmentally friendly nuclear power generation equipment. Meanwhile, rising steel material and energy prices, global shortage of special steel materials and Renminbi appreciation have caused an unfavorable impact on our operations.

NEW CONTRACTS

For the first half of 2008, the power generation equipment market continues to maintain an upward momentum. The newly acquired orders of the Group amounted to RMB34.3 billion, representing an increase of 55 per cent over the same period last year.

PRODUCTION AND SERVICES

As orders at hand being delivered, the Group's output during the first half remained relatively high. The output in utility boilers was 13,875MW (34 units), an increase of 5.43 per cent over the same period last year. The output in power plant turbine was 10,654MW (36 units), a decrease of 11.66 per cent over the same period last year. PROSPECT

For the second half of 2008, the domestic economy is expected to grow at a steady pace. Market demand for power generation equipment will gradually slow down, whilst high new-tech products featuring high capacity, high parameter, environment and high performance will see accelerated growth. Meanwhile, as the market demand for nuclear power generation speeds up its growth, the overseas market demand will remain strong. The power generation equipment market is entering a new phase of competition.

For the second half of the year, the Group will perform its work in a planned and systematic manner with abundant orders on hand and is expected to achieve satisfactory growth. Amid fierce market competition and onerous production duties, shortage of special raw materials, rising material and energy prices, ongoing RMB appreciation and the pressing marketing demand for technologically advanced products, the Group will face tremendous challenges in the course of development.

The Group will continue to step up its efforts in the development and manufacturing of new model of power generation equipment represented by nuclear power; focus on absorbing and introducing technology and innovate on this basis; accelerate the domestic production and independent development of large scale gas turbines, nuclear power, super critical and ultra super critical coal-fired power plants and large scale pumped storage units, as well as speed up the technological renovations and production facilities construction , so as to fully enhance its market competitiveness.

In overcoming the difficulties, the Group will fully execute the orders on hand and establish sound market credibility; continue to improve internal management and strengthen cost control; formulate effective measures to minimize the adverse effects from rising raw material prices, tight supply and ongoing RMB appreciation on the operations of the Company.

The Group will continue to consolidate and develop the domestic market, with a long-term goal to strengthen the market development of environmental friendly and IGCC products, so as to maintain a leading market position in the future. Meanwhile, he Gd(00371(e 7(m)6(a)-1(rk)8
